#### 1. Purpose

To establish and maintain the integrity of systems using open source software, maintain accurate inventories of open source software used in Premier's systems, and enforce security configuration settings for open source software products employed in support of Premier's information technology and business operations.

#### 2. Scope

Applies to all workforce members of Premier, Inc. and controlled subsidiary companies ("Premier").

#### 3. Definitions

**Open Source Software** – Software that is available in source code form. Certain software rights normally reserved for copyright holders are routinely provided under software license agreements that permit individuals to study, change, and improve the software.

**Workforce Member** – Any individual employee with logical and/or physical access to Premier information assets and resources.

#### 4. Attachments/References

## POLICY

---

- Without exception, all use of open source software used in any Premier's system is subject to this Policy.
- The Configuration Management (CM) Enterprise Control Family control objectives and standards directly support this Policy. Refer to Premier's Written Information Security Program for details of the CM control family.

#### **CM-10: Software Usage Restrictions**

- Premier uses software and associated documentation in accordance with contract agreements and copyright laws.
- Tracking systems for software and associated documentation are protected by quantity licenses to control copying and distribution. For example, simple spreadsheets or fully automated, specialized applications depending on organizational needs.
- The use of peer-to-peer file sharing technology is controlled and documented to ensure that this capability is not used for the unauthorized distribution, display, performance or reproduction of copyrighted work.
- Users are required to implement and utilize software in accordance with license agreements and copyright laws.

**Printed copies are for reference only. Please refer to the electronic copy for the latest version.**

**CM-10(a): Software Usage Restrictions | Open Source Software**

7. Premier allows open source software for use only when a strong business case exists and a risk assessment supports the need.

**Responsibility**

8. The Vice President Risk Management & Compliance and Corporate Information Security Officer (CISO) and are jointly responsible for the amendment and interpretation of this Policy.

**Where to Go with Questions and Concerns**

Contact the Director Information Security Compliance, Vice President Risk Management & Compliance or the Chief Information Security Officer (CISO) with questions or concerns about this Policy.
