DEPARTMENT OWNER:

Corporate Compliance

Printed copies are for reference only. Please refer to the electronic copy for the latest version.

1. Purpose

To establish the policy required to define Information Classifications determined by the relative sensitivity and criticality of Premier Information Assets, and to provide requirements and guidelines for the handling, transmitting, storage, retention and destruction of each Information Classification.

2. Scope

Applies to all Information (electronic or hard copy) accessed, collected, generated, maintained, used, or entrusted to Premier and its Workforce Members with direct or indirect Access to Premier's Information Security Management System or Premier Information Assets.

3. Attachments

Appendix A – Definitions

4. References

POLICY

A. Information Classification

Information classification is the process of labeling Information and Data ("Information") in order to organize it according to its risk to loss or harm from disclosure. The *Information Classification and Handling Policy* establishes a baseline derived from federal laws, state laws, regulations, and Premier policies that govern the security, privacy and confidentiality of information.

All Workforce Members have a responsibility to protect the Confidentiality, Integrity and Availability of Information collected, processed, stored, or transmitted irrespective of the location or medium on which the Information resides.

B. Security Framework – National Institute of Standards and Technology ("NIST")

Information classification, in the context of information security, is the classification of Information based on its level of sensitivity and the impact to Premier should that Information be disclosed, altered or destroyed without authorization. The classification of Information helps determine what baseline security controls are appropriate for safeguarding that data.

According to NIST, Information should be classified and labeled based on the principles of Confidentiality, Integrity and Availability. Any particular set of information can be assigned three security ratings, one for Confidentiality (low, medium, or high), another for Integrity (low, medium, or high), and a third for Availability (low, medium, or high).

Most Breaches that cause high impact are a result of unauthorized access to Confidential or Restricted Information. Therefore, Premier's Information Classification standard and assignment of classification places prime importance on the level of Confidentiality required of the Information.

Principle	Objective	Potential Impact		
		Low	Medium	High
Confidentiality	Preserving authorized restrictions on Information access and disclosure, including means for protecting personal privacy and proprietary Information.	The unauthorized disclosure of Information could be expected to have a limited adverse effect on organizational operations, organizational assets, or individuals.	The unauthorized disclosure of Information could be expected to have a serious adverse effect on organizational operations, organizational assets, or individuals.	The unauthorized disclosure of Information could be expected to have a severe or catastrophic adverse effect on organizational operations, organizational assets, or individuals.
Integrity	Guarding against improper Information modification or destruction, and includes ensuring Information non-repudiation and authenticity.	The unauthorized modification or destruction of Information could be expected to have a limited adverse effect on organizational operations, organizational assets, or individuals.	The unauthorized modification or destruction of Information could be expected to have a serious adverse effect on organizational operations, organizational assets, or individuals.	The unauthorized modification or destruction of Information could be expected to have a severe or catastrophic adverse effect on organizational operations, organizational assets, or individuals.
Availability	Ensuring timely and reliable access to and use of Information.	The disruption of access to or use of Information or an Information system could be expected to have a limited adverse effect on organizational operations, organizational assets, or individuals.	The disruption of access to or use of Information or an Information system could be expected to have a serious adverse effect on organizational operations, organizational assets, or individuals.	The disruption of access to or use of Information or an Information system could be expected to have a severe or catastrophic adverse effect on organizational operations, organizational assets, or individuals.

C. Classification Types

Although all Information classifications require some level of protection, particular Information classifications are considered more sensitive and stricter controls are required for these classifications.

All Premier Information should be reviewed on a periodic basis and classified according to its use, sensitivity and importance to Premier and in compliance with federal and state laws.

The level of security required will depend in part on the effect that unauthorized Access or disclosure of those data values would have on Premier operations, functions, image or reputation, assets, or the privacy of individuals.

Premier has identified three classifications of Information that can be grouped into two main groups: Public Information and Non-Public Information.

C.1. Public Information

Public Information is Information and documents of a non-sensitive nature that are intended and approved for public disclosure, including all publicly accessed Premier information. The unauthorized disclosure, alteration or destruction of that Information would result in little or no risk Premier. Little or no controls are required for Public Information, but it is recommended to include some level of control to avoid unauthorized modification or destruction.

C.2. Non-Public Information

Premier has identified two primary Information classifications of non-public Information that are defined as **Premier Internal Information** and **Premier Restricted Information**.

C.2.1. Premier Internal Information

Premier Internal Information consists of Information and documents processed, stored or maintained by Premier that may be accessed, used and disclosed by Workforce Members and authorized third parties to perform job related services or for general work-related Information. Examples of Premier Internal Information include, but are not limited to, organizational charts, policies and procedures, project Information, and customer/member listings.

The unauthorized disclosure, alteration or destruction of Internal Information could result in a limited to moderate level of risk to Premier and a reasonable level of security controls should be applied to Internal Information.

C.2.2. Premier Restricted Information

Premier Restricted Information consists of Information and documents that are sensitive or private, of high value to the Company, require tight controls over distribution, and are intended for use by a limited number of identified internal or external individuals (subject to strict confidentiality agreement or other agreement) expressly authorized by the owner of the Information or document. Restricted Information must be controlled from creation to destruction and will be granted only to those authorized persons who require such access in order to perform their job, or those individuals permitted by law.

Premier Restricted Information includes, but is not limited to, Information that Premier is required to protect under regulatory or legal requirements, and/or Information where any unauthorized disclosure or access may 1) subject Premier to legal risk, 2) adversely affect its reputation, 3) jeopardize its mission, and/or 4) present liabilities to individuals (i.e., HIPAA penalties). The impact of unauthorized disclosure or the inappropriate use of Premier Restricted Information could be significant and/or cause severe harm such as legal, regulatory or financial liability/consequences; adverse competitive impact; significant or extreme harm to Premier's reputation, Premier's systems, and compromise to Premier Information.

Examples of Premier Restricted Information include the following categories:

C.2.2.1. Premier Proprietary Information

Premier Proprietary Information includes:

- Documents, records and electronic Information or data processed, stored or maintained by Premier that is confidential in nature, and is restricted to specifically authorized individuals;
 - **Examples:** company financial documents, any business data that is not freely available to the entire Premier organization, such as trade secrets and intellectual property.
- Documents, materials and electronic Information or data processed, stored or maintained by Premier that is part of business between Premier and another business entity Customer (not an individual consumer);
 - **Examples:** Customer purchasing data, Customer outcomes/compliance data, Protected Health Information (PHI), data regulated by the Federal Privacy Act of 1974 and/or FISMA that is Customer generated or the result of Customer/Premier work product in nature.
- Documents, materials and electronic Information or data processed, stored or maintained by Premier that includes any documents, materials and electronic data processed, stored or maintained by Premier that is part of business between Premier and an individual consumer)
 - **Examples:** Payment Card Industry Data ("PCI"), Consumer Purchasing Data, Protected Health Information (PHI), and Data that is individual/consumer generated or the result of consumer/Premier work product in nature.
- Documents, materials and electronic Information or data processed, stored or maintained by Premier that are proprietary to Premier.
 - **Examples:** proprietary commercial data, human resources data, Protected Health Information (PHI) (for example, self-funded health plan data), data regulated by the Federal Privacy Act of 1974 and/or FISMA, and outcomes/compliance data that is Premier generated and Premier owned.

C.2.2.2. Personally Identifiable Information

Personal Identifiable Information (PII) is defined as data or other Information which otherwise identifies an individual or provides Information about an individual in a way that is reasonably likely to enable identification of a specific person and make personal Information about them known.

Personal Information includes, but is not limited to, Information regarding a person's home or other personal address, social security number, driver's license, marital status, financial Information, credit card numbers, bank accounts, parental status, sex, race, religion, political affiliation, personal assets, medical conditions, medical records or test results, home or other personal phone numbers, employee number, personnel or student records.

Information about an individual which includes any of the identifiers below:

- Name

- Street address
- All elements of dates except year
- Telephone number
- Fax number
- Email address
- URL address
- IP address
- Social Security number
- Account numbers
- Driver's License numbers or State or other identification card number
- Device identifiers and their serial numbers
- Vehicle identifiers and serial number
- Biometric identifiers (finger and voice prints)
- Full face photos and other comparable images
- Any other unique identifying number, code, or characteristic

Examples: Personal characteristics, including photographic image, fingerprints, handwriting, geo-location data, biometric data (e.g. retina scan, voice signature, facial geometry); Information about an individual that is linked or could be linked to a particular person, such as: phone number, date of birth, place of birth, race, height or weight, geographical indicators, employment Information, education Information, an individual's digitized or electronic signature.

PII also includes Information of an exceptionally sensitive nature that could be misused, resulting in significant harm to the individual, whether through embarrassment, identity theft, or other financial or social harm. This type of information could include employment applications; interview notes that contain personal details such as race or ethnicity; customer records reflecting bank account Information, Social Security Numbers, credit card Information, and/or a password to an online or other account.

C.2.2.3. Payment Card Information

Payment Card Industry Information (PCI) is Information or data related to credit, debit, or other payment cards, including:

- Cardholder name
- Credit/debit card account number
- Credit/debit card expiration date
- Credit/debit card verification number
- Credit/debit card security code

C.2.2.4. Protected Health Information

Protected Health Information (PHI) is Information that is collected about an individual that:

- Is created or received by or on behalf of a covered entity health care provider health plan, or health care clearinghouse;
- Relates to the past, present, or future physical or mental health or condition of an individual, the provision of health care to an individual, or the past, present or future payment for the provision of health care to an individual; and

- Identifies the individual or with respect to which there is a reasonable basis to believe the Information can be used to identify the individual based on standards of identification issued by the federal government

An individual's personal Information that includes at least one of the 18 personal identifiers listed below in association with the health Information:

- Name
- Street address
- All elements of dates except year
- Telephone number
- Fax number
- Email address
- URL address
- IP address
- Social Security number
- Account numbers
- License numbers
- Medical Record number
- Health plan beneficiary #
- Device identifiers and their serial numbers
- Vehicle identifiers and serial number
- Biometric identifiers (finger and voice prints)
- Full face photos and other comparable images
- Any other unique identifying number, code, or characteristic

Examples: prescription records, medical records, psychotherapy notes, diagnoses, health care claims and other billing records and invoices for lab work.

C.2.2.5. Authentication Information

Authentication Information is Information and data used to access systems which must be controlled from creation to destruction and will be granted only to those authorized person who require such access in order to perform their job, or to those individuals permitted by law. Authentication data is assigned to individuals as codes or passwords or derived from their physical identity. It authorizes individual's access to selected Premier systems and data. Authentication data is administrative in nature and must be stored and handled separately from other forms of Premier Information.

The unauthorized disclosure, alteration or destruction of Authentication Information could result in significant/severe harm (legal, regulatory or financial liability/consequences; extreme harm to Premier systems and compromise to Premier data; significant harm to Premier's reputation).

D. Responsibility and Accountability

Information Owners are responsible for:

- The full implementation of this Policy and all other relevant policies within Premier;
- Ensuring all Information (irrespective of its format) owned, created, received, stored and processed within their control is classified and handled in accordance with this Policy;
- Making sure adequate procedures are implemented within their control, so as to ensure all Workforce Members, including contractors, sub-contractors, agency staff, third parties and

others that report to them, are made aware of and are instructed to comply with this Policy and all other relevant policies;

- Making sure adequate procedures and training programs are implemented to ensure on-going compliance of this Policy and all other relevant policies;

Vice Presidents, Directors and Managers are responsible for:

- The implementation of this Policy and all other relevant Premier policies within the departments for which they are responsible;
- Ensuring all Information (irrespective of its format) owned, created, received, stored and processed within the department they manage is classified and handled in accordance with this Policy;
- Ensuring that all Workforce Members who report to them are made aware of, understand and have access to this Policy and all other relevant Premier policies;
- Ensuring that all Workforce Members who report to them are instructed to comply with this Policy and all other relevant Premier policies;
- Ensuring that all Workforce Members who report to them are provided with adequate information and training regarding the implementation of this Policy and all other relevant Premier policies;
- Consulting with the Privacy Team and Human Resources department in relation to the appropriate procedures to follow when a breach of this Policy has occurred. (See *Reporting a Suspected Security or Privacy Incident or Violation Policy* and *Security and Privacy Violations and Sanctions Policy*.)

Each **Workforce Member** is responsible for:

- Complying with the terms of this Policy and all other relevant Premier policies, procedures, regulations and applicable legislation;
- Ensuring all Information (irrespective of its format) for which they are responsible is classified and handled in accordance with this Policy;
- Reporting all misuse and breaches of this Policy to their department manager and the Privacy Team in accordance with *Reporting a Suspected Security or Privacy Incident or Violation Policy* and *Security and Privacy Violations and Sanctions Policy*.

E. Enforcement

Premier reserves the right to take such action as it deems appropriate against Workforce Members who breach the conditions of this Policy. Workforce Members who breach this Policy may be subject to disciplinary action, including loss of Premier Information System access privileges, suspension, termination and/or civil and criminal prosecution as provided for in the *Security and Privacy Violations and Sanctions Policy and Procedure*.

F. Review and Update

This Policy is reviewed and updated annually or more frequently, if necessary, to ensure any changes to Premier's organizational structure and business practices are properly reflected.

G. Information Handling

G.1. Handling

Information handling is the process of ensuring that Information is used, stored, archived or disposed of in a safe and secure manner during and after the use of such Information. All Information (irrespective of its format) owned, created, received, transmitted, stored and processed by Workforce Members must be handled appropriately according to its classification.

HANDLING		Non-Public Information
-----------------	--	-------------------------------

	Public Information	Premier Internal Information	Premier Restricted Information
Legal Requirements	Information approved for general access by appropriate Premier authority.	Premier has best practice (due care) reasons to protect Information.	Protection of Information is required by law or best practices.
Access Restrictions:	None for Information approved to be Public.	Access normally restricted to Workforce Members and approved non-Workforce Members for business purposes only.	Access granted only to Workforce Members with a need-to-know business purpose. Access granted to external parties subject to a non-disclosure agreement, a business need-to-know purpose, and if required, appropriate licenses to the data.
Physical Labeling (paper, thumb drive, tape label)	None required for Information approved to be Public.	"Premier Internal, Confidential, Proprietary" – is recommended. For specific access restrictions "For Premier Use Only" is recommended.	"Premier Restricted" is recommended. For specific access restrictions, "For Use by Named Individuals Only" is strongly recommended. Labeling should be prominently displayed on document.
Electronic Labeling (digital file, e-mail, web page)	None required for Information approved to be Public.	Appropriate markings (as above) on subject-line, header/footer, and master slide of presentations as well as proper footers on subsequent pages recommended.	Appropriate markings (as above) on subject-line or header/footer strongly recommended.
Cloud Collaboration Permissions	For Information approved to be Public, data owner may grant the following permissions (or equivalent); upload, download, view, preview, get link, edit, or delete	Information Owner may grant the following Information permissions to approved individuals: upload, download, view, preview, link, edit, or delete.	Data owner may grant only the following Information permissions to approved individuals for a specific documented need-to-know purpose: upload, download, view, preview, link, or delete.

G.2. Transmitting

All Information (irrespective of its format) transmitted by Workforce Members must be transmitted appropriately according to its classification. Reasonable and appropriate measures must be in place to guard against unauthorized access and protect the Integrity and Confidentiality of Information that is transmitted physically or electronically while the Information is in transit and when the transmission is initiated by Premier.

Workforce Members must limit the transmission of Premier Restricted Information to the minimum amount necessary, guided by law and policy.

<u>TRANSMITTING</u>	Public Information	Non-Public Information	
		Premier Internal Information	Premier Restricted Information
Physical Transmission:	No security requirements for Information approved to be Public.	Internal Premier – No security requirements. External – Sealed Envelope marked confidential/proprietary strongly recommended.	Documents can be sent through interoffice regular office marked confidential. Information should be double sealed in plain exterior envelope with no markings indicating the nature of the contents and second interior envelope should be clearly

			marked on the outside "To be Opened by Addressee Only – Premier Restricted/Confidential"
Electronic Transmission:	No security requirements for Information approved to be Public.	Information should be transmitted to a verified account (email address or login ID).	Information must be transmitted in a secure form (using encryption or other Corporate or business approved methods - DataMotion) and addressee must be an approved recipient prior to access granted. Transmission must have controlled access, e.g. individual user account access and password protected account login.

G.3. Storage

Information storage is the recording (storing) of Information (data) in a storage medium which allows it to be processed at a later date. Depending on whether the Information is physical or electronic, it will have to meet certain Technical, Administrative and Physical safeguards during storage in order to be compliant with state and federal laws and corporate policies.

Workforce Members must limit the storage of Premier Restricted Information to the minimum amount necessary, guided by law and policy.

<u>STORAGE</u>	Public Information	Non-Public Information	
		Premier Internal Information	Premier Restricted Information
Physical Storage (paper, thumb drive, tape):	No security requirements for Information approved to be Public.	Secure office or other location. Room need not be locked if access to the building or floor is restricted to Premier Workforce Members and authorized non-Workforce Members.	Storage in a locked drawer, file cabinet, or office required. If stored in an open-file storage area, access to the area must be restricted to authorized personnel.
Electronic Storage (digital file, e-mail, web page):	No security requirements for Information approved to be Public.	Stored in a directory or folder with restricted access, e.g. password protection, or access restricted to authorized individuals.	Information must be stored on laptops, mobile and removable devices, or on back-up media in encrypted form (using Corporate or business-approved methods). Information must be stored in a directory or folder with controlled access, e.g. individual named account access and password protection.
Cloud Storage:	No security requirements for Information approved to be Public.	Stored in Corporate or Business-approved Cloud only with restricted access.	Stored in Corporate or Business approved Cloud only (go through PIA process for approval). Information should be stored in a directory or folder with controlled access.

G.4. Retention

Retention is defined as the maintenance of Information, data, or documents in a production or live environment which can be accessed by an authorized user in the ordinary course of business and involves the operations surrounding the management of the official documents and records for

Premier. Premier is bound by various obligations with regard to Information it retains or that is in its custody or under its control. These obligations include how long Premier may retain Information and when and how it can be destroyed.

Further, Premier may be involved in unpredicted events such as litigation or business disaster recoveries that require access to the original Information or Documents in order to protect Premier's interest or those of its Workforce Members, customers, patients, providers and partners.

As a result, Information or documents may need to be archived and stored for longer than the Information may be needed for day-to-day operations and business processes.

Broadly, when the Information or document retention period is over and no longer needed, it is to be destroyed in a proper manner as outlined in section "G.5. Destruction" of this Policy.

For purposes of enforcing retention in accordance with this Policy, each department is responsible for the Information or documents it creates, uses, stores, processes, transmits and destroys.

The Legal Department may issue a litigation hold request which requires that Information or documents relating to potential or actual litigation, arbitration or other claims, demands, disputes or regulatory action be retained in accordance with instructions from the Legal department.

Each Workforce Member is responsible for returning Documents in their possession or control to Premier upon separation, termination, or retirement. Final disposition of such Documents shall be determined by the immediate supervisor in accordance with this Policy.

Workforce Members must limit the retention of Premier Restricted Information to the minimum amount necessary, guided by law and policy.

RETENTION	Public Information	Non-Public Information	
		Premier Internal Information	Premier Restricted Information
	No restrictions - check with Premier Privacy and Premier Legal for specific Information retention periods	6 years – check with Premier Privacy and Premier Legal for specific Information retention periods	10 years – check with Premier Privacy and Premier Legal for specific Information retention periods
	Refer to "Appendix C - Retention" in this Policy for document-specific retention periods		

G.5. Destruction

Destruction is defined as physical or technical destruction sufficient to render the Information contained in the document irretrievable by ordinary commercially available means.

When retention requirements have been met, Information or documents must be either immediately destroyed or placed in secure locations as described in this section for controlled destruction.

Review the Record Retention Policy (Section G.4.), Premier Retention Requirements (Section H), and the information within this section before disposing of documents or Information of any kind.

No Information or documents that are currently involved in, or have open investigations or audits, or Information for which a legal "hold" has been issued, shall be destroyed or otherwise discarded.

Review, purge and shred printed documents regularly. Shred documents prior to disposal/recycling. Adequately secure any documents that must be stored temporarily prior to shredding so they are not accessible to anyone without authorization.

Ensure complete destruction of Information on electronic storage media, computers, and portable devices prior to disposal/recycling. Securely erase media prior to transfer to another individual or department. Securely erase data used for testing once testing is complete.

Premier must maintain and enforce a detailed list of approved destruction methods appropriate for each classification of Information as outlined below.

<u>DISPOSAL</u>	Public Information	Non-Public Information	
		Premier Internal Information	Premier Restricted Information
Physical Disposal	No security requirements for Information approved to be Public.	Shredding or depositing in authorized bins provided the collection and destruction of paper and removable media.	Shredding or depositing in authorized bins provided for the collection and destruction of paper and removable media.
Electronic Disposal (digital file)	No security requirements for Information approved to be Public.	Use the delete feature on your system. The recycling, folder, etc. should be periodically emptied if that was used for the initial delete.	Use the delete feature on your system followed by immediately emptying the recycling bin, folder, etc. if that was used for the initial delete.
Device Disposal	No security requirements for Information approved to be Public.	Device should be altered to remove any identifiable Premier Information.	Device must be altered to remove and/or destroy any identifiable Premier Information.

G.6. Audit Controls

Each department will support security management activities designed to detect potential Security Incidents or Privacy Incidents by implementing hardware, software, and/or procedural mechanisms that will record and examine Information Systems activity.

<u>AUDIT CONTROLS</u>	Public Information	Non-Public Information	
		Premier Internal Information	Premier Restricted Information
	No audit controls for Information approved to be Public.	Information Owners, Department Managers and Data Custodians with responsibility for Internal Information must periodically monitor and review their systems and procedures for potential misuse and/or unauthorized access. Each department should conduct periodic reviews of where Internal Information is located, who has access to it, the access control mechanisms, encryption	Information Owners, Department Managers and Data Custodians with responsibility for Restricted Information must actively monitor and review their systems and procedures for potential misuse and/or unauthorized access. They are also required to submit an annual report to the Information Security Officer outlining departmental security practices and training participation. Each department must conduct periodic reviews of where

		protocols, and data destruction protocols. Verify that procedures for removing access are documented and accurate.	Restricted Information is located, who has access to it, the access control mechanisms, encryption protocols, and data destruction protocols. Verify that procedures for removing access are documented and accurate.
--	--	--	---

G.7. Incident Reporting

It is the responsibility of each Workforce Member to report real or suspected Security or Privacy Incidents, Violations, potential Breaches, and noncompliance with Premier's security and privacy policies, standards, processes, and procedures, as well as state and federal regulations, using the procedure outlined in the *Reporting a Suspected Security or Privacy Incident or Violation Policy and Procedure*.

When in doubt about whether a situation, circumstance, or act triggers an obligation to make an internal report, Workforce Members should err on the side of caution and file an incident report using the procedure outlined in the *Reporting a Suspected Security or Privacy Incident or Violation Policy and Procedure*. A non-exhaustive list of possible Security and Privacy Incidents and Violations can be found in *Security and Privacy Violations and Sanctions Policy and Procedure*.

	Public Information	Non-Public Information	
		Premier Internal Information	Premier Restricted Information
<u>INCIDENT REPORTING</u>	No Incident Reporting required or recommended for Information approved to be Public.	Report the loss of any Internal Information to the appropriate Manager and the Premier Privacy Team who will determine the requirements, if any, for further reporting.	Any unauthorized disclosure or loss of Restricted Information must be reported to the appropriate Manager and the Premier Privacy Team. If you are unsure if an incident is significant, contact Premier's Privacy Team or Chief Privacy Officer.

H. Premier Retention Requirements

Business Line	Business Area	Type of Record	Retention Period
Advocacy	Advocacy	Senate GPO Hearing Materials	Permanent
		Coalition Letters	7 Years
		The National Quality Forum Ballots and Comments	7 Years
		Healthcare Policy Position Statements	Permanent
		Political Action Committee (PAC) Reports	7 Years
		Grassroots: (1) Action Alerts (2) Annual Surveys of Federal Affairs Network Contacts	7 Years
		Federal Affairs Network (FAN) Committee Meetings:	5 Years

		(1) Planning (2) Summaries (3) Attendance Records (4) Meeting Packets	
All Corporate Management	All Corporate Management	Business Continuity / Disaster Recovery Plans	Superseded
		Calendars/Diaries/Planners	1 Year
		Directives: (1) Corporate Policies and Procedures (2) Executive Memoranda (3) Corporate Codes for Conduct	Permanent
		Directories	In General Superseded
			Standard Practices Permanent
		Minutes and Reports from Company Committee Meetings (other than Board of Director Committees or Committees involved in product sourcing)	3 Years
		Organizational Charts	Superseded
		Outside party generated reports developed at the request of and for the benefit of Premier	In General 3 Years
			For External Clients 3 Years
			Internal 1 Year
		Speeches given by Company Executives	3 Years
		Visitor Logs	5 Years
Communications	Communications	Advertising Contracts	Terminated plus 5 Years
		Biographies of Company Workforce Members	Superseded
		Company Newsletters (Internal (field), Members, Suppliers)	1 Year
		Conference Materials	5 Years
		Graphics Materials (artwork, drawings, logos, stationary, etc.)	Superseded plus 3 Years
		News Releases (One Copy)	5 Years
		Position Statements (Press Statement, Policy Letter, Position Piece, Summary Documents)	Current Legislative Bills 1 Year Post Consideration
			All Other 3 Years
		Product Literature	Superseded plus 3 Years
		Promotional Materials	Superseded plus 3 Years

Contracts	Note: The above retention periods are for Original Signed Copies only. Drafts of Contracts should be destroyed upon final execution of the contract by all parties or 1 year after termination of negotiations if no agreement is signed.	Confidentiality/Non-Disclosure Agreements with all non-workforce member third parties (including members, participants on sourcing non-workforce member committees, etc.) (Workforce member confidentiality agreements are addressed below).	Expired Plus 5 Years
		Construction Contracts	As long as Facility is Owned Plus 5 Years
		Contracts – General (including all outside/third-party contracts not otherwise listed)	Expired Plus 5 Years
		Consulting Agreements with Independent Contractors	Expired Plus 7 Years
		Correspondence, memoranda and associated files related to disputes arising out of contracts	Permanent
		Government Contracts	Expired Plus 5 Years
		Group Purchasing Contracts and Amendments	Expired Plus 7 Years
		Invention Assignment Forms	Permanent
		Joint Venture Agreements	Permanent
		Know-How Agreements	Permanent
		License Agreements	Expired Plus 5 Years
		Memoranda of Understanding or Agreements	Expired Plus 7 Years
		Mortgages and Easements	Expired Plus 7 Years
		Patent/Trademark Licenses	Permanent
		Technical Assistance Agreements (including Maintenance and Support Agreements)	Expired Plus 5 Years
Correspondence	Correspondence for Long-Term Retention	Correspondence with Government Agencies	7 Years
		Letters denying or affirming liability of the Company	Corresponds to the retention period of the principal record/document
		Letters that constitute all or part of a contract or which clarify certain points in a contract or claim that arises under an insurance contract	Corresponds to the retention period of the contract
		Letters that constitute all or part of any other official document or which clarify certain points in the document	Corresponds to the retention period of the

				principal record / document
		Letters pertaining to patents, copyrights, licensing agreements, bills of sale, permits, etc.		Corresponds to the retention period of the principal record/document
	Correspondence for Short-Term Retention	Letters of general inquiry and responses that complete a cycle of correspondence and have no value beyond possible reference from the correspondent within a reasonable period of time		1 Year
		Letters reporting complaints with the Company's services (excluding vendor grievances addressed below)		3 Years
		Letters requesting specific action such as name/address change		1 Year
		Other correspondence from outside parties		1 Year
	Non Essential Correspondence	Duplicate/multiple copies of interdepartmental or other Company correspondence		No Retention Period
		Form letters which require no follow-up		No Retention Period
		Letters and notes that require no acknowledgement or follow-up, such as notes of appreciation, congratulations, plans for meetings, etc.		No Retention Period
		Other letters of non-essential subject matter or which require no further action or reference		No Retention Period
Environmental	Environmental	Environmental Studies and Reports		30 Years
		Hazardous Waste Manifests		Permanent
		Judicial, Administrative, and Compliance Documents/Reports		Permanent
		Miscellaneous Environmental Records		7 Years
		Monitoring Reports under Permits		3 Years After Expiration of Permit
		Permits		As long as Facility is Operating Plus 5 Years
		Reports (and associated supporting documents) required by:	Significant workforce member health allegations (this would include	30 Years

			allegations of exposures to potentially hazardous substances)	
			The Clean Air Act	3 Years from Date of Submission
			The Clean Water Act	3 Years from Date of Submission
			The Comprehensive Environmental Response, Compensation and Liability Act (CERCLA)	3 Years from Date of Submission
			The Emergency Planning and Community Right-to-Know Act of 1986	3 Years from Date of Submission
			The Resource Conservation and Recovery Act (RCRA)	3 Years from Date of Submission
			The Superfund Amendments and Reauthorization Act (SARA)	3 Years from Date of Submission
			The Toxic Substance Control Act (TSCA)	5 Years from Date of Submission
Facilities	Facilities	Acquisition Data	Furniture and Equipment	Life of Furniture and Equipment Plus 3 Years
			Real Property	As long as Facility is Owned Plus 5 Years
		Appraisals (Real Property)		As long as Facility is Owned Plus 5 Years
		Leases (Equipment)		Expired Plus 3 Years

		Leases (Real Property): (1) Originals (2) Supporting Documentation	Expired Plus 7 Years
		Maintenance and Repair Reports	Furniture and Equipment Life of Furniture and Equipment
			Real Property 7 Years
		Plans and Specifications	Permanent
		Sales	Furniture and Equipment 7 Years
			Real Property Permanent
Financial / Accounting / Tax	Financial / Accounting / Tax	Accounts Payable (accruals, cancelled checks*, cash receipts, check copies, Customer invoices, purchase orders, check registers, coding adjustments, 1099s and W-9s, payment files [workforce member, seller/servicer, vendor], prepaid items, check requests and expense reports [including travel and expense])	7 Years
		Accounts Receivable (cost sharing, invoices, annual aging, deferred revenue, collections documentation, debit and credit memos, account reconciliations)	7 Years
		Acquisition Work papers (accounting issues only)	Permanent
		Banking (bank statements, cashbook, checks, stubs, deposit slips, reconciliations, signed credit card receipts, wire transfers)	7 Years
		Borrowings and Loans	Repayment Plus 7 Years
		Brokerage statements	7 Years
		Budgets/Forecasts Information (forecasts, budget plans, budget vs. actual/variance, trend analysis)	Superseded Plus 7 Years
		Cancelled Checks for Important Payments (taxes, purchases of property, special contracts, etc.) (should be filed with the documents pertaining to the underlying transaction)	Permanent
		Capital Stock Documentation for General Ledger	Permanent
		Executive Reporting (annual reports, audit reports [internal and external])	Permanent
		General Correspondence	1 Year
		General Ledger (chart of accounts, detail general ledger, interface reports,	Permanent

		journal entries, monthly closing, other financial reports, system maintenance, trial balance, account reconciliations)		
		Inventory Records	7 Years

Where to Go with Questions and Concerns

Contact the Chief Privacy Officer with questions or concerns about this Policy.

APPENDIX A - DEFINITIONS

Access: The ability or the means necessary to view, read, write, modify, or communicate data/information or otherwise use any system resource.

Active Record: Document or record that is undergoing processing and is needed, and referred to frequently, in the daily operations of an organization. In governmental or large firm usage, active records are those which are referred-to at least once per month. Also called Current Record.

Archived Record: A record that is retained permanently by Premier for legal, business, historical or reference purposes. Also called Permanent Record.

Audit Control: A process for assuring achievement of an organization's objectives in operational effectiveness and efficiency, reliable financial reporting, and compliance with laws, regulations and policies.

Authentication: Verifying the identity of a user, process, or device, often as a prerequisite to allowing access to resources in an Information system.

Availability: Ensuring timely and reliable access to and use of Information.

Biometric Data: Personal data resulting from specific technical processing relating to the physical, physiological or behavioral characteristics of a natural person, which allow or confirm the unique identification of that natural person

Confidentiality: Preserving authorized restrictions on Information access and disclosure, including means for protecting personal privacy and proprietary Information.

Current Record: Document or record that is undergoing processing and is needed, and referred to frequently, in the daily operations of an organization. In governmental or large firm usage, active records are those which are referred-to at least once per month. Also called Active Record.

Data Classification: Data classification is the process of organizing data into categories for its most effective and efficient use.

Data Handler: Anyone who acquires, creates, enters, produces, supplies, views, accesses, administers, analyzes, backs up, compiles, controls, has custody of, decodes, directs, edits, handles, manages, manipulates, modifies, packages, processes, purchases, reads, reposit, has stewardship of, stores, works with, consumes, delivers, provides, removes and/or sells electronic data.

Data Stakeholder: Anyone who administers, decides, makes decisions about, governs, guards, manages, owns, is a stakeholder in, and/or derives benefit from electronic data.

Destruction: Physical or technical destruction sufficient to render the information contained in the Document irretrievable by ordinary commercially available means.

Disposal: The process by which Records or Information are either destroyed or retained. Disposal is a range of processes associated with implementing the records retention, destruction or transfer decisions documented within this Policy.

Disposition: The final stage of record management in which a record or information is either destroyed or is permanently retained in a storage facility.

Expired Record: A record that has been retained for the full period prescribed within this Policy.

Handling: The process of ensuring that Information is used, stored, archived or disposed of in a safe and secure manner during and after the use of such Information.

Impact: The magnitude of harm that can be expected to result from the consequences of unauthorized disclosure of Information, unauthorized modification of Information, unauthorized destruction of Information, or loss of Information or Information system availability.

Inactive Record: A Premier record that is no longer needed during the regular course of operations, but that is retained because of its business or historical value. The record may be stored within a unit or in a central repository.

Incident: A single or a series of unwanted or unexpected security or privacy events that result in harm, or pose a significant threat of harm, to Premier Information, Premier Protected Data, and/or Premier's Information Security Management System, and require non-routine preventative or corrective action.

Information: An instance of an Information type.

Information Assets: Is a body of knowledge that is organized and managed as a single entity and anything that has value to Premier, Inc. It is an identifiable collection of data stored in any manner and recognized as having value for the purpose of enabling Premier, Inc. to perform its business functions and operations.

Information Classification: Information classification is the process of labeling Information in order to organize it according to its risk to loss or harm from disclosure.

Information Owner: The person or group with statutory or operational authority for specified Information or Data and responsibility for establishing the criteria for its creation, collection, processing, dissemination, or disposal; the person or group responsible for applying security and privacy policies to Information or Data.

Information Security: The protection of Information and Information systems from unauthorized access, use, disclosure, disruption, modification, or destruction in order to provide confidentiality, integrity, and availability.

Information Security Management System: Is a set of policies and procedures for systematically managing an organization's Protected Data. Premier's ISMS is designed to minimize risk and ensure business continuity by pro-actively limiting the impact of a security or Privacy Breach to Premier Inc.'s. Systems and/or computers, which include but are not limited to, laptops and network devices used to Process Premier Protected Data.

Information System: An interconnected set of information resources under the same direct management control that shares common functionality. A system normally includes hardware, software, information, data, applications, communications, and people.

Information Technology: Any equipment or interconnected system or subsystem of equipment that is used in the automatic acquisition, storage, manipulation, management, movement, control, display, switching, interchange, transmission, or reception of data or Information by the executive agency. For purposes of the preceding sentence, equipment is used by an executive agency if the equipment is used by the executive agency directly or is used by a contractor under a contract with the executive agency which: (i) requires the use of such equipment; or (ii) requires the use, to a significant extent, of such equipment in the performance of a service or the furnishing of a product. The term Information technology includes computers, ancillary equipment, software, firmware, and similar procedures, services (including support services), and related resources.

Information Type: A specific category of Information (e.g., privacy, medical, proprietary, financial, investigative, contractor sensitive, security management) defined by an organization or in some instances, by a specific law, Executive Order, directive, policy, or regulation.

Integrity: Guarding against improper Information modification or destruction, and includes ensuring Information non-repudiation and authenticity.

Intellectual Property: Is a property right that can be protected under federal and state law, including copyrightable works, ideas, discoveries, and inventions. The term intellectual property relates to intangible property such as patents, trademarks, copyrights, and Trade Secrets.

Legal Hold: A restriction on a record that exists as a result of current or anticipated litigation, audit, government investigation or other such matter that suspends the normal disposition or processing of records.

Legal or Litigation Hold: A restriction on a record that exists as a result of current or anticipated litigation, audit, government investigation or other such matter that suspends the normal disposition or processing of records. Legal holds are issued by the Premier Legal Team or Premier Compliance Team.

Permanent Record: A record that is retained permanently by Premier for legal, business, historical or reference purposes. Also called Archived Record.

Premier: The term Premier is meant to Include Premier, Inc., its Subsidiaries, and any affiliated companies that are subject to any and all applicable organizational, state and federal regulations.

Privacy Incident: The loss of control, compromise, unauthorized Disclosure, unauthorized acquisition, unauthorized Access, or any similar term referring to situations where persons other than authorized users, have Access or potential Access to Protected Data in usable form, whether physical or electronic, or where authorized users Access Protected Data for an unauthorized purpose. The term encompasses both suspected and confirmed incidents involving Protected Data which raise a reasonable risk of harm.

Process: The means to perform any operation or set of operations upon Premier's Protected Data, whether or not by automatic means, including but not limited to, collecting, recording, organizing, storing, maintaining, adapting or altering, retrieving, Accessing, consulting, Using, Disclosing by transmission, Disseminating, or otherwise making available, aligning or combining, blocking, erasing, or destroying.

Public Information: Any Information, regardless of form or format that an agency discloses, disseminates, or makes available to the public.

Records: Means any recorded information, regardless of physical form or characteristic that is created or received by any individual, in the course of employment or contract with Premier.

Retention: The maintenance of documents in a production or live environment which can be accessed by an authorized user in the ordinary course of business and involves the operations surrounding the management of the official documents and records for Premier.

Retention Period: The retention period for a document includes the year the document was originated or acquired plus the period of time set forth in this Policy.

Risk: The level of impact on organizational operations (including mission, functions, image, or reputation), organizational assets, individuals, other organizations, or the Nation resulting from the operation of an Information system given the potential impact of a threat and the likelihood of that threat occurring.

Sanction: The penalty for noncompliance with Premier, Inc. policies, procedures, standards, and processes, as well as state and federal regulations.

Security: All of the administrative, physical, and technical safeguards in an information system.

Security Incident: The attempted or successful unauthorized Access, Use, Disclosure, modification, or destruction of information or interference with system operations in an information system containing or processing Protected Data.

Storage: Information storage is the recording (storing) of Information (data) in a storage medium which allows it to be processed at a later date.

Subsidiaries: Means any company which is owned or controlled directly or indirectly by another company; and includes any service corporation owned in whole or in part by an insured depository institution or any subsidiary of such a service corporation.

Superseded Record: A Record that is to take the place or position of a previous Record.

Terminated Record: A Record in which the activity that is the subject of a record has ended or been terminated.

Threat: Any circumstance or event with the potential to adversely impact agency operations (including mission, functions, image, or reputation), agency assets, individuals, other organizations, or the Nation through an Information system via unauthorized access, destruction, disclosure, modification of Information, and/or denial of service.

Transmit: Information transmission is the process of sending digital or analog data over a communication medium to one or more computing, network, communication or electronic devices. It enables the transfer and communication of devices in a point-to-point, point-to-multipoint and multipoint-to-multipoint environment. Transmission can also include the physical transmission of Information from one place to another.

Use: The sharing, employment, application, utilization, examination, or analysis of such information with an entity that maintains such information.

Vulnerability: Weakness in an Information system, system security procedures, internal controls, or implementation that could be exploited or triggered by a threat source.

Workforce Members: All employees, contractors, consultants, temporaries, as well as those representing themselves as being connected with Premier, Inc. or any of its Subsidiaries.
